

Description of the csv files

Search module	Name, information files	Name, files containing figures (one per year)
Atc code	atc_code_text.txt	YYYY_atc_code_data.txt
Product name	Product_name_text.txt	YYYY_product_name_data.txt

Population data from Statistics Denmark	Population_data.txt
---	---------------------

The csv files, that contains figures, includes in search module Atc code: data from 1996 and onwards, hospital data from 1997 and onwards, data on prescription sales to individuals from 1999 and onwards, per region from 2007 and onwards.

Search module Product name includes hospital data from 1997 onwards.

For further information see “Data basis and description” and also take a look at medstat.dk

I filerne er anvendt:

Separator ;

Missing value ;; (empty space)

The observation ends with ;

No separator for thousands

Search module: Atc code

Name of file: **atc_code_text.txt**

Type of data: Information per atc code for observations in YYYY_atc_code_data_txt

Number of files: one

Variables in listed order

Variable	Value/explanation

language	0/Danish 1/English

Text for notes 1-5, search module Atc code

Note 1 There are some drugs without or with another volume unit.

Note 2 Some medicines are Combination Products. This has implications for the DDD value.

Note 3 Some medicines have a national assigned DDD value.

Note 4 Figures are not calculated for all years because of differences in volume units.

Note 5 The reporting of the sales of J01 and L01 (volume) for the hospital sector has been changed from 2011 onwards. For further detail see "Data basis and description" section "Reporting errors, deficiencies etc."

Note 6 Because of reporting errors no data for region Midtjylland is included since 2007.

Name of file: **YYYY_atc_code_data_txt**

Type of data: mainly figures

Number of files : one per year.
